I-Move Patient Transport Chairs

I-Move Patient Transport Chair

Robust and ergonomically designed, this carer-operated patient transport chair is easy to manoeuvre and ideal for use in the hospital environment. With its contemporary styling and modern upholstery colours, the I-Move will be a welcome addition to any patient transport chair fleet.

Each I-Move features the following:

- White epoxy coated light weight steel chassis
- White polyurethane fold down armrests
- Comfortable PVC seat and back rest cushions
- Storage for patient's medical notes
- Retractable foot support platform
- Storage tray for patient's belongings
- Durable, non-marking, solid rubber rear wheels (300mm dia), with foot operated brake bar, plus front swivel castors (125mm dia)
- Accessories include IV Pole and Adjustable Leg Support
- Storage for oxygen cylinder
- Available in several model configurations
