

### Warequip P2GO Powered Cagemate 1160

The Cagemate is a platform trolley with a cage that opens on 2 sides and has a front wheel drive. It features a powered drive system, eliminating heavy manual pushing. This powered platform trolley with removable cage sides is ideal in laundries, hospitals and large retail companies. Can be used to transport large amounts of goods that are big and bulky and require a cage to help keep the product on board.
