

BARIATRIC

EZ Way Smart Lift®

EZ Way Smart Lift®

Ultra heavy duty mobile sling lifter for transferring a bariatric patient to and from a bed, commode, recliner, static chair or wheelchair. Also capable of lifting and transferring a fallen patient from the floor to a bed or chair/wheelchair.

The EZ Way Smart Lift® proprietary circuit board system includes features to provide customers with added intelligence and safety features including:

Backlit LCD screen

During operation, the LCD screen is illuminated for ease in viewing lift readout information. Battery gauge, function indicator, dual up/down control, digital scale readout.

Usage time captured

Lift usage time is captured in minutes, great for tracking frequency of use.

Overload protection

Should the actuator be overloaded due to lifting excess weight, lifting against an obstruction, or mechanical failure, "Actuator Overload" will appear on the LCD screen, the stand will cease lifting, and will only lower. A great feature to protect both patients and the lift.

Weight Overload

This feature will display "Weight Overload" on the LCD screen and will only allow the stand arms to lower.

Weight recall

On the lift the scales retain the last weight taken until a new weight is taken, allowing caregivers easy reference in busy working environments.

Smart Lift® Applications:

Transfer patients to/from bed, commode, wheelchair or chair.

Reposition or turn patients in bed using specialty accessories.

Weigh patients using scale.

Elevate limbs using Limb Lifting Straps.

Low Profile Base

Optional low base for use with low clearance beds and stretchers.

Floor Lifting

Ability to lift patients from the floor.

BARIATRIC

EZ Way Smart Lift®

DISPOSABLE SLING

Single patient use for infection control. Available from Small to XXL, with and without head support.

WIPEABLE SLING

For infection control. Less frequent need to launder. Available from Small to XXXL.

MULTI-PURPOSE SLING

For amputees or patients with larger lower extremities. Available from Small to XXXL.

CONTROL CONSOLE WITH LCD READOUT

Battery gauge, function indicator, dual up/down control, digital scale readout.

Additional Features:

- 10 Year Frame / 3 Year Component Warranty
- Highest Weight Capacities in the Industry
- 3 Position Base Opening for Function Around Wheelchair, Chair and Commode
- Battery Powered; Always Available for Use
- Pneumatic Hand Control
- Digital Scale
- Low base for low clearance of Special Beds and ease of function on carpeted flooring.
- Redundant Controls
- Emergency Stop Safety Control
- Emergency Lowering Option
- Includes 2 Batteries, Remote Charger and One XL Deluxe Sling.

Technical Specifications

Battery Power	24 Volt lead acid
Remote Charging Unit	120V UL listed
Base Dimensions w/3" Standard Caster	30"W x 66"L x 53.5"H
Harness With Unit	Size XL Regular
Harness Bag	Standard
Casters Available	3"and 4"
Safe Working Load	450kg
Optional equipment	<ul style="list-style-type: none"> • Limb Lifting Strap • Walking Harness • Full body w/leg support sling • Hip Sling
