## Wheelie Bin Transport Trolley

### Wheelie Bin Transport Trolley

This specially designed trolley features a roll-over bar that assists in levering the bin onto and off the trolley with ease. The Wheelie Bin Trolley has been designed to transport bins over a distance. With the help of our 24V Dual Wheel MotorDrive, moving the heavy load is as easy as walking.

The trolley's ingenious suspension system allows the drive wheels to float in a vertical and lateral movement. This ensures the drive system has positive contact to the ground at all times over all surfaces.

#### Features:

- Floating 24V Dual MotorDrive with forward / reverse & electromagnetic braking
- Easy bin loading and removal
- Safety chain bin constraint
- Powder coat finish (colour options)
- Options for single, double and three bin trolleys
- Optional bag hooks, auxiliary hooks and storage spaces available
