## Bariatric Mattress

The Icon Maxx Bariatric Mattress provides care, pressure relief and comfort for bariatric patients; through the use of proven foam combinations, unique construction methods and high performance cover materials to achieve comfort, longevity and effective patient care.

### Top Cover Specification:

- Vapour Permeable and breathable
- Superior 4-way stretch for shear protection
- Waterproof
- Anti-microbial protection, resistant to patient body fluids
- BS 6807 ignition source 5
- BS 7175 ignition source 5
- Fully welded with zip (4 sides) and waterfall protection flaps
- 1000ppm cleaning agent concentration suitability
- 4 years guarantee on fabric if maintained correctly
- Care instructions on mattress cover

### Base Cover Specification:

- Heavy duty PVC Base
- Protects foam core against the bed base
- Provides exceptional conformity and profiling to medical bed surfaces
- Reduces shearing forces by sliding against bed base as the bed profiles
- Meets fire retardant specifications: ASTM D6413 PASS, AS1441.13 - 1973 - PASS, AS1530.3 - 1999 - 14,0,0,5

## Icon Maxx Bariatric Mattress

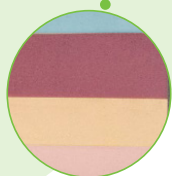

### Foam Specification:

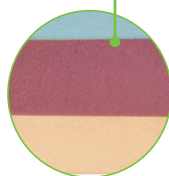

- Layered firm base provides protection against 'bottoming-out' during transfer, repositioning and whilst in the inclined/fowler position
- Enhances profiling with adjustable bed surface positions minimising excess strain on bed mechanisms
- Delivers postural support for patient repositioning and transfer
- Excellent core stability that encourages centralised patient positioning to minimise falls risk, entrapment and enhance pressure relief
- Foam conforms to AS/NZS 4088.1:1993
- Anti-microbial treatment applied to foam maximises longevity and core micro-climate
- 5 years guarantee on foam.

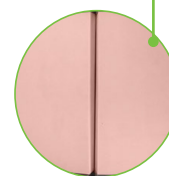

4-Layered graded pressure care core

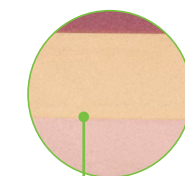

Premium postural support secondary layer

Triple section, split base

Premium visco-grad, upper immersion layer

Layered firm base
