## Motorised Food Tray Trolley

### Motorised Food Tray Trolley

The Service Assist Motorised Food Tray Trolley is a simple option for distributing meal trays where a large number of trays are required. With the added feature of Electric Drive Assist and utilising a straightforward control panel, the tray trolley offers excellent manoeuvrability. The runners allow for two trays to be placed side by side for a total capacity of 32 trays.

#### Features:

- Up to 32 tray capacity (also available with 16 trays)
- Stainless steel construction
- 2 trays side by side on each runner
- Soft feel castors for smooth operation
- Optional rail around top
