Fortress Altitude Bobath 2 Section Table

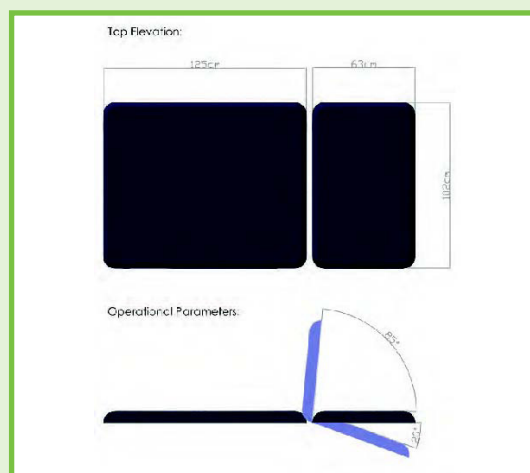

Fortress Altitude Bobath 2 Section Table

With the increasing requirements for examination couches with the capacity of supporting extremely heavy patients, Fortress have designed this range of electric lift models that combine a safe working load/lifting capacity of 320kgs. They also feature extra thick upholstery for maximum patient comfort. The Fortress Altitude Bobath Table is ideal for treating patients with neurological conditions and head injuries. Its sturdy wide top makes the couch safe for the therapist to work together with the patient.

Features:

- Premium quality, MRSA resistant anti-bacterial and fire retardant upholstery
- Extra thick padding ensures patients are comfortable
- Ergonomic design
- Integrated towel holder
- Gas assisted head section allows easy patient adjustment
- Superior cantilever lifting system
- Sturdy frame design allows for heavy manipulations
- High quality European motors
- Large transportation castors enable a smooth ride and easy to push
- Adjustable foot for uneven floors
- Non-slip feet ensure a sturdy table
- Weight capacity 320kg
